

# CITIZENS TAKE NOTE

Our "so-called" representatives are conspiring against the poor and elderly by putting up blocks to the passage of this proposed ordinance, File No. 182-75.

1. Redevelopment Agency (Evans)
  2. Bureau of Building Inspection (Goldberg)
  3. City Planning Department
  4. The Housing Committee of the Board of Supervisors will define their role today.
1. Arthur Evans sent a letter to the Supervisors advising them not to approve this legislation for the poor.
  2. Arthur Goldberg thinks the people's money belongs to the city government, and it's simply there for him to set on. Doesn't he know what he will hatch that way?
  3. The City Planning Department relates to File No. 182-75 like they are planning for its demise.

*Handwritten signature or initials, possibly "C. Evans".*
